

## ▶ Extending EuroKids Dhobighat

EuroKids Dhobighat made a tactical decision to extend its preschool wing in 2015 and hence Lalitpur Euro School came into existence.

At Lalitpur Euro School, we believe in fun based learning. It continues the legacy of quality education delivered with exemplary dedication, child friendly infrastructure attached with modern technologies. It emphasizes on high level of safety and balanced schooling that delivers the best learning as per the current global trend.

The foundation and the exposure the child would have during their early childhood will play a strong role in shaping their character. Hence, we not only focus on the academics but also emphasize on overall development of the child.

## ▶ Our Motto "Mentoring for Better Tomorrow"

Our aim is to provide the highest quality education in a safe, secure and nurturing environment so that students explore themselves the strategies to tackle the challenges of dynamically changing world.

## ▶ Philosophy

- We strongly believe in "Every Child is Unique" philosophy and education is not only limited to books and classrooms
- Achieving best in the field of interest is the best education for a student
- Balanced curriculum between academic and extra-curricular activities is best strategy for self-exploration
- We are committed to make each child socially, morally and culturally responsible

"Play is the highest form of research." - Albert Einstein

## ▶ Why We Are Different

### CONCEPT

It is not just school, it is an academy. Lalitpur Euro School provides each student a platform to explore themselves in various fields of academic and extracurricular activities. The learning process is not only focused on classroom studies and academic learnings, but also intensely focused to explore the strength of the student in other avenues. Every individual has unique capabilities so is our technique which is specially structured to develop those skillsets. A lot of our students are not only excellent academically but also best in their field of interest.

### CLASSROOMS

Interactive Smart Class and E-class are the need of the hour. These amalgamate the modern day technology with the most interesting learning environment for the students. Well-equipped computer lab will be used by student in scheduled period which helps them in further exploration. Audiovisual method of teaching will make classroom learning more interesting. This follows the principle: **I hear I forget, I see I remember and I do I know.**

### CLUBS AND SOCIETIES

This is the most innovative and pioneering aspect of education in Nepal. Apart from normal education setting, there will be academies and each student has to join clubs and master their co-curricular activities. There would be a patron for each of the club for the purpose of guiding the student.

- Sport Academies (Football, Basketball, Cricket, Badminton...)
- Music Club and Dance Club
- Literature and Dramatic Society
- Social work group and social work activities
- Practical work group
- Project works and exposure trips
- Adventure Club (horse riding, hiking, swimming)

### CURRICULUM

Balanced education through Learning - Reinforcement - Practice - Application (LRPA) technique is the most appropriate. Building on the curriculum of Government of Nepal through LRPA teaching approaches would make our learning environment most interesting and student friendly. Numerous field and project works as per demand of the curriculum are the integral part in our well designed learning process. The curriculum has following focus:

- To empower each student through the development of their cognitive, emotional, physical and social skills. Academically it focuses development in areas: Motor Skills, Numeracy, Science, Language, Creative Arts and Socio-emotional
- To provide each student with a school life full of positive experiences
- To create a well-developed personality and prepare to confidently engage with and contribute to their communities at local, regional and global level
- To provide to parents a friendly, transparent and professional experience across the range of their interactions with the school

"One child, one teacher, one book and one pen can change the world." - Malala Yousafzai
